

Medicare Part D Coverage Notice – Important Information About Your Prescription Drug Coverage and Medicare

Please note that the following notice only applies to individuals who are or will become eligible for Medicare in the next 12 months.

Medicare eligible individuals may include employees, spouses or dependent children who are Medicare eligible for one of the following reasons.

- Due to the attainment of age 65
- Due to certain disabilities as determined by the Social Security Administration
- Due to end-stage renal disease (ESRD)

You are responsible for providing this notice to your spouse, your domestic partner or any dependent who is or will become Medicare eligible in the next 12 months. If your spouse, your domestic partner, or any dependent resides at a different address than you, please contact us to provide that individual's address as soon as possible.

Please read this notice carefully and keep it where you can find it. This notice has information about your current prescription drug coverage with Kelley Automotive Group and about your options under Medicare's prescription drug coverage. This information can help you decide whether or not you want to join a Medicare drug plan. If you are considering joining, you should compare your current coverage, including which drugs are covered at what cost, with the coverage and costs of the plans offering Medicare prescription drug coverage in your area. Information about where you can get help to make decisions about your prescription drug coverage is at the end of this notice.

There are two important things you need to know about your current coverage and Medicare's prescription drug coverage:

1. Medicare prescription drug coverage became available in 2006 to everyone with Medicare. You can get this coverage if you join a Medicare Prescription Drug Plan or join a Medicare Advantage Plan (like an HMO or PPO) that offers prescription drug coverage. All Medicare drug plans provide at least a standard level of coverage set by Medicare. Some plans may also offer more coverage for a higher monthly premium.
2. The prescription drug coverage offered by Kelley Automotive Group is, on average for all plan participants, expected to pay out as much as standard Medicare prescription drug coverage pays and is therefore considered Creditable Coverage. Because your existing coverage is Creditable Coverage, you can keep this coverage and not pay a higher premium (a penalty) if you later decide to join a Medicare drug plan.

When Can You Join a Medicare Drug Plan?

You can join a Medicare drug plan when you first become eligible for Medicare and each year from October 15 through December 7. However, if you lose your current creditable prescription drug coverage, through no fault of your own, you will also be eligible for a two (2) month Special Enrollment Period (SEP) to join a Medicare drug plan.

What Happens to Your Current Coverage if You Decide to Join a Medicare Drug Plan?

If you decide to join a Medicare drug plan, your current coverage will not be affected. Your current coverage pays for other health expenses in addition to prescription drugs. The prescription drug coverage is part of the Kelley Automotive Group plan and cannot be separated from the medical coverage. If you enroll in a Medicare prescription drug plan, you and your eligible dependents will still be eligible to receive all of your current health and prescription drug benefits. You have the option to waive the coverage provided under the Kelley Automotive Group plan due to your eligibility for Medicare. If you decide to waive coverage under the Kelley Automotive

Group plan due to your Medicare eligibility, you will be entitled to re-enroll in the plan during the next open enrollment period.

When Will You Pay a Higher Premium (Penalty) to Join a Medicare Drug Plan?

You should also know that if you drop or lose your current coverage through the Kelley Automotive Group plan and don't join a Medicare drug plan within 63 continuous days after your current coverage ends, you may pay a higher premium (a penalty) to join a Medicare drug plan later. If you go 63 continuous days or longer without creditable prescription drug coverage, your monthly premium may go up by at least 1% of the Medicare base beneficiary premium per month for every month that you did not have that coverage. For example, if you go 19 months without creditable coverage, your premium may consistently be at least 19% higher than the Medicare base beneficiary premium. You may have to pay this higher premium (a penalty) as long as you have Medicare prescription drug coverage. In addition, you may have to wait until the following October to join.
